NET MONTHLY CASH FLOW (MCF)

It's all about Cash Flow and Time because with these two things everything is possible. Without these two things, nothing is possible. So what is your Net Monthly Cash Flow (MCF)?

Total Monthly Income (TMI)	- Total Monthly Expenses (TME)	= Monthly Cash Flow (MCF)
Ex. 1 $2000	$2200	-$200
Ex. 2 $2500	$2200	$300
$	$	$

THIS IS YOUR NET MONTHLY CASH FLOW

IMPORTANT: Take a look at your Net Monthly Cash Flow!!!! What do you think? Write your very first thoughts here.
